

Henrique Lima

Systems Analysis and Development

Objective: Software Development Internship

Paulista, PE | +55 (81) 98367-3405 | henriquebl2000@gmail.com | github.com/HenriqueBL | linkedin.com/in/henriquebdl

PROFESSIONAL SUMMARY

Systems Analysis and Development student (4th semester) seeking a software development internship. I work with Java and Python — including process automation and data extraction with Selenium, Playwright and requests — plus web applications with React, integration through REST APIs and SQL databases. I use AI-assisted development to ship with quality and speed. Fluent in English, with a High School semester in the United States; self-taught, proactive and driven by curiosity.

HIGHLIGHTS

- Process automation and data extraction with Python (Selenium, Playwright, requests)
- Web applications and REST APIs with Java, Spring Boot and React
- SQL databases and automated testing (JUnit)
- Productive collaboration with AI (Claude Code, Prompt Engineering)
- Fluent English, proactive mindset and fast learning

EDUCATION

Systems Analysis and Development

Jan 2025 – Present

Bachelor's degree (in progress)

4th semester. Focus on programming, OOP, databases and web development.

High School — Exchange (USA)

1 semester

Mt Ida High School (Arkansas) · Ganhe o Mundo Program (PGM)

Academic and cultural immersion in the United States; foundation of fluent English.

PROJECTS

Todo API — Task Manager

Java 17, Spring Boot, JPA, H2, JUnit

REST API with CRUD, validation, global error handling and tests.

Realtime API Watcher

Python, requests, Threading, REST APIs

Real-time API monitor that fires automatic actions; JWT, concurrency and backoff.

Personal Portfolio

Next.js, TypeScript, Tailwind CSS

Site with SSG, dark mode, bilingual resume and full SEO.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, HTML, CSS, SQL

Automation & Data Extraction: Selenium, Playwright, PyAutoGUI, Requests, Web Scraping, Process Automation

Frontend: React, Next.js, Tailwind CSS, Responsive Design, UI/UX

AI & Productivity: Claude Code, AI-Assisted Development, Prompt Engineering

Tools: Git, GitHub, REST APIs, VS Code

Fundamentals: Programming Logic, OOP, Databases

LANGUAGES

Portuguese (Native) · English (Fluent)

COURSES

Java Course · Udemy

Language fundamentals, object-oriented programming and programming logic.

SOFT SKILLS

Communication, Organization, Fast learning, Teamwork, Problem solving, Analytical thinking, Curiosity, Adaptability.
